### Conditions of service of staff in the Professional and higher categories

#### A. Base/floor salary scale

*Recalling* its resolution 44/198, by which it established a floor net salary level for staff in the Professional and higher categories by reference to the corresponding base net salary levels of officials in comparable positions serving at the base city of the comparator civil service (the United States federal civil service),

*Also recalling* its resolution 70/244, by which it approved a unified base/floor scale and by which it decided that this scale should be updated to reflect any adjustments in base/floor salaries before its implementation,

*Approves*, with effect from 1 January 2017, as recommended by the Commission in paragraph 122 of its report, the revised unified base/floor scale for staff in the Professional and higher categories, as contained in annex V to the report;

#### B. Evolution of the margin and margin management around the desirable midpoint

*Recalling* section 1.B of its resolution 51/216 and the standing mandate from the General Assembly, in which the Commission is requested to continue its review of the relationship between the net remuneration of the United Nations staff in the Professional and higher categories in New York and that of the comparator civil service employees in comparable positions in Washington, D.C. (referred to as “the margin”),

1. *Reaffirms* that the range of 110 to 120 for the margin between the net remuneration of officials in the Professional and higher categories of the United Nations in New York and officials in comparable positions in the comparator civil service should continue to apply, on the understanding that the margin would be maintained at a level around the desirable midpoint of 115 over a period of time;

2. *Notes* that the margin between net remuneration of the United Nations staff in grades P-1 to D-2 in New York and that of officials in comparable positions in the United States federal civil service in Washington, D.C., for the period from 1 January to 31 December 2016 is 114.5;
