Parks73 – The Townhouse Hotel

In December 2018, the new apartment hotel on Rennweg 73 opened for its guests. 49 apartments, each named after a place in Vienna, offer guests the comfort of a hotel and the feel-good atmosphere of a home.

During your visit, discover the green oasis in the courtyard and on the roof terrace of Park73, crowned by a phenomenal waterfall that promises pure relaxation with its soft splashing and lighting in the dark. Hotel guests as well as visitors of the hotel can spend pleasant hours together or attend regular events.

This **'coming together'** of national and international guests is a big desire of the Park 73 team. The hotel wants to offer its guests the opportunity to get to know Vienna through its inhabitants and its outstanding products. Every host of the house is committed to this idea and with heartiness friendliness and competence, gives guests an unforgettable stay in the park 73.

Our centrally located apartment hotel is not a city hotel in the traditional sense. The apartments are fully equipped. The kitchen has a built-in dishwasher as well as a freestanding refrigerator and plenty of storage space for food. The apartments are very modern and individually furnished. Each apartment has been named after a special sight in Vienna, and is themed after it.

All apartments have a balcony or terrace that invites you to start the morning with a cup of coffee, which is specially roasted for the hotel, or to end an eventful day with a glass of Viennese wine. Our Park 73 is managed privately and therefore consists of a small family team, which is always ready to fulfill all your wishes. Stop by and find out what makes our apartments unique.

Relax on the sun terrace

Our quiet, 600 m² large, green sun terrace with solar shower and plenty of reclining and seating invites you, especially in summer to forget worries and grief and relax with a good regional drink and switch off.
